

To Our Neighbors,

Summer has arrived, please take the time to evaluate the condition of your property, lawn, landscaping, driveway, fencing etc. Does it need weeding, trimming, pressure washing, repairs, repainting, etc...? Please address any and all areas that need attention.

Starting in July, the board of directors will collaborate with Ameri-Tech Management to inspect and enforce the community standards for the exterior maintenance of each home in the community. Violation letters will be sent to all homeowners who are not in compliance with the current regulations. We appreciate your cooperation in helping us maintain the beautiful neighborhood we all call home.

Thank You,
The Board of Directors
